Surprised at Overthrow. Surprise was expressed at the Mexican embassy here when Senor de la LaCuerv , charge de affaires and the members of staff were informed of Madero's overthrow, and it brought a feeling of relief, in that the suspense which they had been undergoing during the last ten days of revolutionary turmoil had

been lifted. Having received little official information from Mexico City, the embassy had not been able, it was said, to forecast the result of the revolution. The staff, however, appeared to be satisfied that a settlement had been reached even if it had

resulted in a change of government. General Huerta was described by attaches of the embassy as a stern soldier of the type of former Presidept Diaz, a man of great personal bravery and a friend of the elder Diaz. On account of his long service and bravery, it was said, he was popular with the army and well known throughout the republic Felix Diaz, leader of the revolution and General Huerta also had been good friends, before the Madero conflict arrayed them in opposite camps.

SOME POPULAR BOOKS

Public Shows Sustained Interest in Special Evening Programs at Public Library.

The continued good attendance at the lectures on popular books by local people at the public library Tuesday evening speaks well for the success of the library in popularizing the works of the best modern authors. The last meeting held Tuesday at 7:30, included talks by W. D. Wood, Miss Laura Tanner, O. Vaught and Miss Carrie Dun-

W. D. Wood spoke on the "Reminiscences of Goldwin Smith." An author of mose scholarly attainment, Goldwin Smith, an Englishman by birth, has contributed both to the political literature of America and England. He was first a professor in the University of Oxford and then at Cornell. He then went to Canada where he continued his literary labors to the ripe old age of ninety-one

In Galsworthy's "Inn of Tran quility." Miss Tanner brought out the necessity of a constant living sympathy with everything human and the supreme idiocy of the spirit of contempt. This book is in the form of twenty-six sketches. Al though differing widely in the subjects considered, the underlying idea throughout the sketches is a love of nature and art, and a portrayal of modern industrial conditions.

In introducing James O. Fagen's 'Autobiography of an Individualist' Mr. Vaught said that his object was not so much to give an outline of the book as to drop enough suggestions to arouse the curiosity of others. A dash of individualistic philosophy is refreshing at this time when so much emphasis is laid upon the rights of society as a whole. James O. Fagen led an eventful life. One of the twelve sons of a poor Scotch pensioner, he started life at the age of sixteen on a cable laying gang in South America. After a number of stirring years in South Africa, this adventurer came to America where he drifted into the railroad business. By dint of hard experience at odd times he taught himself how to write and has lived to see many of his reforms advocated for the railroad man put into effect.

"If infants have ideas, why not young ladies?" quoted Miss Dunlap in her introductory remarks by George Meredith. "The Tragic Comedians" can best be described by the word "fantastical." The story of headstrong Clotilda, her admirer and slave, Marco, and her strange, wild, Jewish lover, Alvan, makes a story of breathless interest. It is a love story, an ardent, change-Chicago are in the city visiting at ful and eventful love story but endthe home of her mother on East ing in tragedy because of the strongminded pretentions of shallow Clo-Mrs. R. Inquest Held at Court House Tuesday Afternoon-Remains Taken to Browning.

Tuesday afternoon at the Court House, Coroner George W. The jury exonerated the street car company and its employes by stating in the verdict that: "We find no evidence

The arrest of Madero took place in the hail of the ambassadors. When the president entered the room he found all the entrances guarded. ADDRESS BY HON. T. E. RYAN

State Organizer of Insurgents Gives Instructive Talk Before Members of Camp No. 912.

There was a large attendance of members of the M. W. A. camp, No. 912, Tuesday evening, to hear Hon. T. E. Ryan of St. Charles, Ill., state organizer. Mr. Ryan was here a short time ago and spoke in the interests of the insurgents before camp

His address last night was full of interesting data as follows: Mr. Ryan clearly explained why

why the insurgent movement was started after the meeting of the head camp in January 1912. showed that under the old rates of insurance and with only nine or ten assessments a year the society had paid in 28 years one hundred and five million dollars in death losses That on Jan. 1, 1912 the society had cash on hand of \$9,667,780, that the society was collecting each month about \$329,867 more than was required to pay leath losses or in other words was laying up a surplus of \$329,867 each month, nearly \$4,-000,000 a year. All this under the old rates, He showed that under the Chicago rates which he is fighting, the society would lay up over \$15,000,000a year of surplus. then showed that the Modern Woodmen of America was a corporation without capital stock and not for profit that no member should ever receive any profit. Being purely a secret society.

That the society was not expected to have any surplus-being incorporated under an act of the Illinois legislature which provides that "The funds for the payment of death losses * are to be realized from assessment on surviving members that no assessment could be made until a death, in the society. Under the amendment adopted in Chicago-is

"The funds for the payment of death losses shall be created and maintained by assessment on the members and by interest on or other receipts to said fund." Thus change ing the plan of the society-and providing for a larger surplus funds.

The head camp passed section 51, which read: "A benefit assessment for each and every calendar month is hereby levied upon each and every eneficial member.

This makes certain 1.2 assessments but they reserve to themselves the right to make as many more as they see fit as follows-they say: "Provide it that the board of directors may from time to time levy a special assessment or assessments in addition to the monthly assessments herein before levied."

So that the member would be entirely at the mercy of the board as to how many assessments would be called for.

In other words of of the members did not irop out fast enough on the 12 high assessments they could increase it as much as they saw fit It apparently being the object to

say on page 6 of Vol 3 of Head Clerks report that it is the best bill ever framed for fraternal societies and this bill would require the society to have a surplus of about \$1,786,098 on hand at all times-Think of this amount of money to be handled by men who deposited \$359,000 in a bank with \$50,000 capital in Clinton, Iowa. The society lost the \$350,000

For the last five years our banker has had a deposit of over \$2,000 .-0000 in the bank-The Woodman paper fails to show we draw any interest on it.

The South Dakota and Nebraska in surance commissioners say this: "It appears from the financial statement attached that on June 30, 1908 there was deposited in 62 banks, \$4,131, 379.77. Of this amount \$2,044,000 had been deposited without collaterls for over 18 months and some of its several months and some of it several years and was safely money." To this could be safely added approximately another million that was fairly safe on tme

They say to a westerner it is certainly surprising that this capital should have been made to draw only two per cent. The Illinois insurance commissioner F. W. Potter said no man could tell what the receipts of the Woolmen paper was, the accounts are so mixed up.

It is now important that the members get together and see to it that was surrounded by the members of such officers are not elected at the next head camp. They have mismanaged the affairs of the society. the have undertaken to break up the order to make the rates so high the man of limited means could not carry his insurance.

It was compelling men who had been in the order until they too old to get another insurance to irop cures diabetes, weak and lame backs, out and leave no protection for their family. Some of our head officers the kidneys and bladder in both men have organized old line insurance companies and are working directbles in children. If not sold by your ly against the society. While we are druggist, will be sent by mail on repaying them \$7,500 a year salary they are now coming to you and say: "Oh we are not going to put the new rate into effect. It is all over now, The old officers are good fellows and should be elected again.' If you should elect them again, you would be enforsing all they did in increasing the rates and all that has been done would be lost.

Organize your county and elect your delegates to meet at a National convention May 15 and 16 Do not be fooled by the head officers they are your worse enemies. Do not trust them, they would beat you out of your society. Watch them.

NOTICE

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD" It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat. 10.00 to 14 per cent Crude Protein . . 52.50 to 60 per cent Crude Fibre 1.00 to 3 per cent Phosphate 10.00 to 12 per cent

What Is "Sure Fatten Hog Food'

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form. It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration. It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as mudlings, shorts, shipstuff, or alfalfa meal. TANKAGE ' recommended by all leading experiment sta-

It is packed in one-hundred-pound burlap sack, plainly mark-"SURE FATTEN HOG FOOD," analysis as above.

It is the ideal feed to balance rations What "Sure Fatten Hog Food" Tankage Does.

It developes bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one

It grows beter proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANK-AGE fed hogs ship well with small shrink.

While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

The Rather Violent Selling Movement of the Last Hour Was Linked With Disquieting Rumors Concerning J. P. Morgan's State of Health.

LOCAL WOMEN ORGANIZE FOR **EQUAL SUFFRAGE MOVEMENT** 

Dr. Dewey is President of Local Branch of Illinois Association— Address Made By Mrs. Stewart.

The votes for women propaganda has come to Jacksonville. At the residence of Dr. Grace Dewey on West State street Tuesday afternoon a local organization was perfected of the Illinois Equal Suffrage association under the direction of Mrs. Ella S. Stewart, of Chicago, a director and organizer of the association. The meeting which was well attended was addressed by Mrs. Stewart on the purpose of the organization after which a constitution and by-laws were adopted and officers elected. The officers are: President-Dr. Grace Dewey.

Vice-president - Mrs. A. Secretary-Miss Anne W. Jack-

Treasurer-Miss Nettie Hayden. Auditor-Miss Frances Wood.

Another address was made by Mrs. Stewart at Illinois college at the chapel hour. At Illinois College.

At Illinois college Mrs. Stewart explained first the plans of the Equal Suffrage association for an intercollegiate oratorical contest. She went on to say that it was the purpose of the leaders of the movement to enlist the best students of the colleges in woman suffrage. Two prizes will be offered, one of \$100 and another of \$50. The contest will be open to members of the three upper classes of institutions of collegiate grade and will be held this year at Northwestern univer-The details of this contest were explained in full at a meeting with the department of oratory at :30 in the afternoon. In her main address Mrs. Stewart traced the progress of the rights of women from a time when she was hardly thought to have a soul, through her struggle for equal rights in education to her present struggle for political rights. Woman suffrage already has a history, as women vote in Australia, New Zealand, Tasmania, Norway, the Isle of Man, and Finland and in over a half a dozen states of the United States. A large and authoritative bibliography exists on the subject. Woman suffrage is inevitable as it conforms to the new conception of the state and the new conception of the place of woman. In the words of Oliver Schreiner, "No man ever struck a blow for women. but he struck two for men, and three for the whole human race.

#### SPEAKS IN BEHALF OF THE INSURGENTS OF BEN HUR TRIBE

At a meeting of the Tribe of Ben Hur No. 215 held last night in their hall, an address in behalf of the insurgents was made by W O. German of Springfield. The officials of the lodge, Mr. German explained, are trying to build a new society from the old by changing the members from one class to another, strangling the old class by closing its doors to the new members. The double assessment came in for a strong denunciation from the speaker. The court took action and voted to cooperate with the two camps in Springfield to work against the increased rate. Several of the members also made brief addresses. There are 2000 members in the local camp, 30,000 in Illinois and 126,-

TO ORGANIZE BROTHERHOOD

Men of First Baptist Church Hold Enthusiastic Meeting Tuesday

About fifty men of the First Baptist church held a very enthusiastic meeting Tuesday evening at the church for the purpose of organizing a Brotherhood and after a very enthusiastic meeting a committee on organization was appointed. Lunch was served by the Young Ladies Aid society of the church and Rev. W. L. Dorgan, Prof. Tanner and Carl Weber gave three excellent talks to the men in which they emphasized the need of such a movement in the church and the good that would result from it. The quartett from the Central Christian church, which is composed of Alex Campbell, Charles Mathis, J. Phil Read and J. L. Proffitt, furnished excellent music for the occasion. Before the close of the meeting an organization committee composed of Prof. Tanner, Carl Weber, Alex Rabjohn and Dr. T. O. Hardesty was appointed and they are to make their report at a meetin to be held April 18. The men o the First Baptist church organized a Brotherhood about twelve years ago but about three years later interest in the movement dropped and the organization disbanded. The men are now working to reorganize.

Mr. Blackburn retired from active farm work several years ago and afterward rented his land out. Since his boyhood days Mr. Blackburn had been identified with Ebenezer church and he has been active in all departments of its work.
